

play with a new perspective

Discover the future of **three-dimensional, dynamic, highly active** play.

It's time to reimagine the very foundation of continuous play with an exciting new collection of PlayBooster® components.

This flowing and flexible system encourages kids to stay in motion with vertical circuits, opportunities for parallel play, under-deck activation and so much more. More routes on more levels elevate everyday playability by offering countless active moments at every decision point.

Bigger than the individual pieces, these components introduce a whole new way to think about PlayBooster.

Looks different, plays different. Unlock the full potential of PlayBooster®.

We've always believed that playgrounds should fit the way kids play, not the other way around. That's why PlayBooster® was so revolutionary. A structure designed from the kids up, with free-flowing, fun-loving play. And like kids, innovation doesn't slow down.

Today is a new day for PlayBooster, with new components that don't just build on that revolutionary structure. They fundamentally change the way kids play on it. Higher elevations, faster slides, flowier routes and all new spaces to explore.

It's everything PlayBooster has always been, fortified with brand new possibilities.

For the adventurous climbers

Big climbs and big slides! This exciting playstructure features a variety of unexpected ways to climb and play.

Play in a garden of fun

A compact park with high climbs, topped by fanciful petal canopies that add a unique dimension to play time.

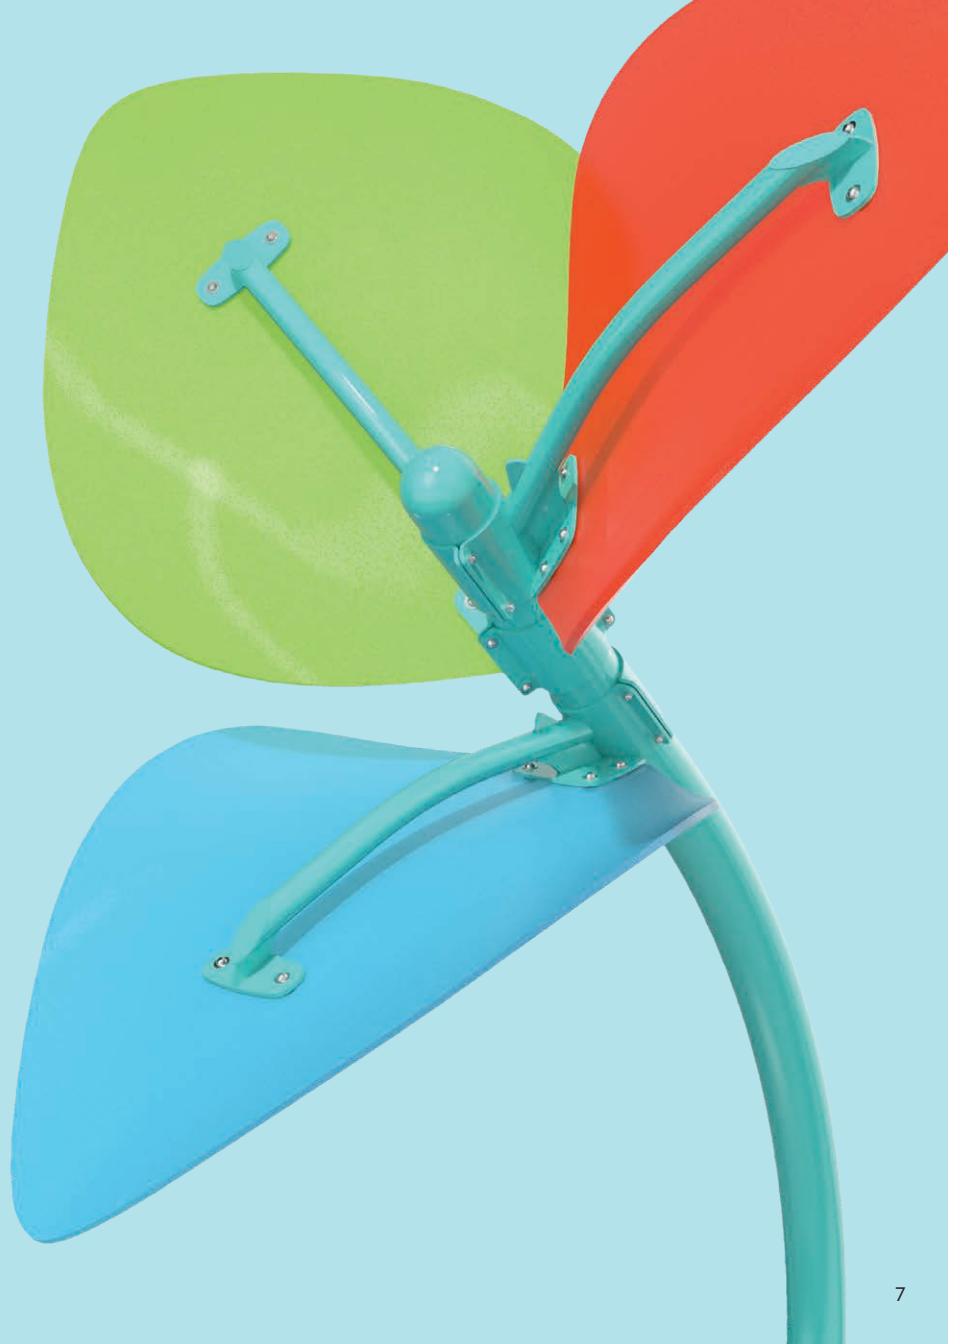

A fort for all

Our iconic treehouse, reimagined with flowing three-dimensional play elements for immersive fun that just keeps going.

The whole is greater than the sum of its parts

You can take continuous play to the Nth degree with these novel PlayBooster® components. Combine them to create elevated designs that deliver on three-dimensional circuitry as well as enhanced playability for every size footprint and budget.

FlowWinder™ Slide

- Smooth curves for an exhilarating ride
- Options for left, right and straight sections
- 32" to 96" decks
- #368212

Petal Canopy

- Available with straight or curved posts
- Option of 1, 2 or 3 petals
- Colorful acrylic adds light play
- #375412

SlideRiser™ Deck

- For use with Alpine® Slide and SlideWinder2®
- Adds 8" of height for more sliding fun
- #363737

Crossbar™ Climber

- 32" to 96" decks
- Climbers 80" and higher include a belt resting spot
- #363735

Abacus™ Climber

- Includes a colorful ball on each cable
- 24" to 72" decks
- #373009

FlexxWay™ Climber

- Game-changing LSI Flexx® provides a comfortable path for walking, crawling or scooting
- Connects decks with 48" height difference, up to 96" on the high side
- Available with Cable Guides or Cable Surrounds
- Patent pending
- #373141

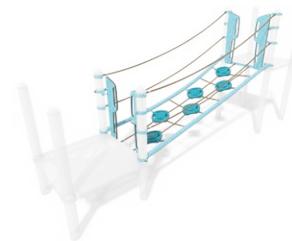

Crux™ Climber

- Climbable on both sides to increase challenge and capacity
- 48", 72" and 80" decks
- #360412

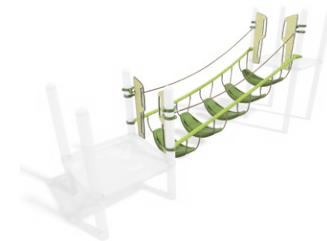

Lotus™ Climber

- Angles and geometric hand- and foot-holds for many ways to climb
- 56" and 64" decks
- #373471

PodHopper™ Climber

- Navigate pods and cable to pick a path to the next level
- Connects decks with 32" height difference, up to 96" on the high side
- Product has different configurations available based on deck height
- #363633

SaddleStep™ Climber

- Wiggly steps lead to the next level
- Connects decks with 32" height difference, up to 96" on the high side
- Product has different configurations available based on deck height
- #363634

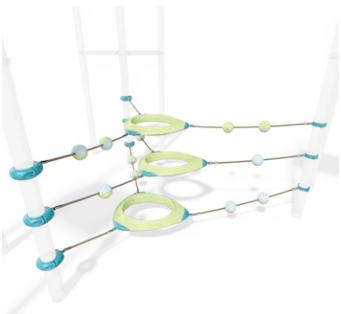

BeltSwoop™ Climber

- Textured black belting provides sensory stimulation while climbing
- Connects decks with 32" height difference, up to 96" on the high side
- Available with Cable Guides or Cable Surrounds
- #363635

VertiGo™ Climber

- Climb high quickly without adding area
- Left and right climbers available
 - #373073 Ground-to-deck
 - #373115 Deck-to-deck

O-Zone® Array Climber

- Activate space in the center of a playstructure
- #372400

Pentagon Bridge

- Movement of loops adds challenge
- #361509

SwiggleKnots™ Bridge Inclined

- Pods, balls and pucks provide multiple climbing experiences on each cable
- #361785

Crossbar™ Bridge

- Colorful bars provide steps to move across, up, down and through
- #362045

Slack Line

- Lengths from 42" to 144"
- #373148 without Cable Guide
- #373149 with Cable Guide

Rocker Seat

- Add activity under decks with a swingy perch
- Includes grab bars
- #373136

HomeBase™ Belt

- Activate under-deck space with a belt for sitting or crawling through
- #362348 Square belt
- #362354 Tri belt

Odle® Seat

- Add a hangout space with movement under square decks
- #363738
